- [Appendix B: Disparity indexes for 2000-2015 are compared](#)

I. BACKGROUND

Concerns by the citizens of Missouri and the Missouri legislature regarding allegations of racial profiling by law enforcement prompted the passage of state law [Section 590.650, RSMo \(2000\)](#), which was enacted Aug. 28, 2000. Racial profiling has been defined as the inappropriate use of race by law enforcement when making a decision to stop, search or arrest a motorist.

Missouri's state law requires that all peace officers in the state report specific information including a driver's race for each vehicle stop made in the state. Law enforcement agencies are required to provide the data to the Attorney General, and the Attorney General is required to compile the data and report to the Governor no later than June 1 of each year. The law allows the Governor to withhold state funds for any agency that does not comply with the law. State law requires that all information be reported to the Attorney General's Office by March 1.

The summary of statewide racial profiling data has been provided by Scott H. Decker, professor and director of the School of Criminology and Criminal Justice at Arizona State University; Richard Rosenfeld, professor in the Department of Criminology and Criminal Justice at the University of Missouri-St. Louis; and Jeffrey Rojek, assistant professor in the Department of Criminology and Criminal Justice at the University of South Carolina.

Table 1. 2015 statewide summary of results

	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Population	4,730,501	3,914,998	515,828	139,109	80,677	19,168	60,721
Stops	1,565,728	1,231,607	275,081	31,624	14,217	1,711	11,488

index							
Search rate	6.01	5.38	8.76	9.00	2.68	5.20	3.67
Contraband hit rate	27.79	29.42	24.34	20.70	22.05	29.21	21.80
Arrest rate	4.51	3.95	6.91	7.24	2.31	4.27	2.66

**Notes:** Population figures are 2010 census estimates for persons 16 and older who designated a single race. Hispanics may be of any race. Other includes persons of mixed race and unknown race.

**Disparity index** = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation, values less than 1 indicate under-representation.

**Search rate** = (searches / stops) X 100.

**Contraband hit rate** = (searches with contraband found / total searches) X 100.

**Arrest rate** = (arrests / stops) X 100.

[ [back to top](#) ]

II. STATEWIDE FINDINGS

**This report** summarizes the data from 623 law enforcement agencies in Missouri for 2015. An additional 56 agencies indicated they made no traffic stops during the year. This represents 97.7% of the 695 law enforcement agencies in the state.

The agencies filing reports recorded a total of 1,565,728 vehicle stops, resulting in 94,126 searches and 70,664 arrests. Table 1 breaks out the stops, searches and arrests by race and ethnic group. **Footnote 1**

**Four summary indicators** are included in Table 1 that may be useful in assessing racial profiling in traffic stops. The first, termed the “disparity index,” relates each group’s proportion of total traffic stops to its proportion of the driving-age population 16 years old and older. **Footnote 2**

A value of 1 on this index indicates that a group’s proportion of vehicle stops equals its population proportion: it is neither “under-represented” nor “over-represented” in vehicle stops. Values above 1 indicate over-representation, and those below 1 indicate under-representation.

For example, the 1,231,607 whites who were stopped accounted for 78.7 percent of all vehicle stops in 2015.

Approximately 82.8% of Missouri’s driving-age population identified as “White.” The value for whites on the disparity index is, therefore, .95 (.783/.828). Whites were stopped, in other words, at slightly below the rate expected based on their fraction of the population age 16 and older from the 2010 Census.

The same is not the case for several other groups. African-Americans represent 10.9 percent of the population 16 years and older but 17.6 percent of all vehicle stops, for a value on the disparity index of 1.61. This means that African-Americans were stopped at a rate 66 percent greater than expected, based on their proportion of the population of people aged 16 and older.

Hispanics, Asians, American Indians, and persons of mixed or unknown race were stopped at rates well below their proportion of the driving-age population.

The values on the disparity index for the different groups can be compared directly to one another. For example, the likelihood that an African-American motorist was stopped is 1.69 times that of a white motorist (1.61/.95). In other words, African-Americans were 69 percent more likely than whites to be stopped based on their respective proportions of the Missouri driving-age population in 2015.

It should be remembered that the disparity index is a gauge of the likelihood drivers of a given race or ethnic group are stopped based on their proportion of *the residential population* 16 and older, not on the population *of motorists* on the state’s streets, roads and highways. A group’s share of the residential population 16 and older may or may not be similar to its proportion of drivers in the reporting area, and when there is a large discrepancy between the two numbers, the disparity index will be skewed.

When this occurs, it may largely be due to the fact that motorists are often stopped in municipalities, counties, or even states in which they do not reside. For example, a county may have a very low percentage of African-American residents, but a higher percentage of African-American motorists passing through the county due to the location of a state or federal highway. If local law enforcement stops some number of African-American motorists passing through the county, the number of stops may be highly disproportionate to the number of African-American county residents—resulting in a high

disparity index—but less disproportionate to the actual number of African-Americans who drive through the county. Because no data is available for the racial demographics of motorist traffic, it cannot be calculated for purposes of this report.

**A second indicator** that can be used to assess racial profiling is the “search rate,” or the number of searches divided by the number of stops (x 100). In this report, searches include both searches of drivers and searches of the vehicle and property within.

The search rate for all motorists who were stopped is 6.01 percent. Asian drivers were searched at a rate well below the statewide average, while African-Americans and Hispanics were searched at rates above the statewide average.

Like the stop rates, the search rates for the different groups can be compared directly with one another. African-Americans were 1.63 times more likely to be searched than whites (8.76/5.38). Hispanics were 1.67 times more likely than whites to be searched (9.00/5.38).

The reasons for conducting a search and the outcome of the search (such as finding contraband) should be considered when making comparisons across groups.

Some searches are conducted with the consent of the driver, or because the officer observed suspected contraband in plain view, had reasonable suspicion that an individual may possess a weapon, or other reasons. These searches may or may not result in an arrest.

Other searches are conducted incident to arrest, which means that there is no other reason given for the search other than arrest. Searches are almost always performed when there is an outstanding arrest warrant, whether or not contraband may be present.

**The third summary indicator**, the “contraband hit rate,” reflects the percentage of searches in which contraband is found. Contraband was found in 27.8 percent of all searches conducted in 2015. There is some variation, however, in the contraband hit rate across race and ethnic groups.

The contraband hit rate for whites was 29.4 percent, compared with 24.3 percent for African-Americans and 20.7 percent for Hispanics. This means that, on average, searches of African-Americans and Hispanics are less likely than searches of whites to result in the discovery of contraband. This difference may result in part from the higher arrest rates for African-Americans and Hispanics—if there is an arrest, there will be a search whether or not the arresting officer suspects the subject has contraband.

The “arrest rate” is the fourth summary indicator included in Table 1 that may be useful for assessing racial profiling. Just under 5 percent of all vehicle stops resulted in an arrest (70,664/1,565,728). The probability of arrest varies across racial and ethnic groups.

Approximately 6.9 percent of the stops of African- Americans and 7.2 percent of the stops of Hispanics resulted in arrest, compared with about 3.9 percent of the stops of whites.

There are two appendices to this year’s report. Appendix A presents the vehicle stop analysis using the statewide proportions of race and ethnicity, rather than those for each jurisdiction.

This year’s report compares the 2015 disparity index to the disparity indexes for 2000 through 2014. These comparisons are presented in Appendix B. **Footnote 3**

For each agency, the disparity index for each racial or ethnic group is presented for 2000-2015. For the state as a whole, the key indicators generally show small changes between the years 2014 and 2015.

The search rate (the percentage of stops in which a search is conducted) decreased between 2014 and 2015 for white, African- American, Hispanic, Asian, and American Indian drivers. The arrest rate for African-Americans decreased (from 7.90 percent to 6.91 percent) and decreased for Hispanics (from 8.19 percent to 7.24 percent) between 2014 and 2015.

A reasoned determination of the existence of racial profiling in a community requires a comprehensive evaluation of the full range of information compiled in the agency reports. This brief summary of selected indicators for the state as a whole is intended to encourage those local evaluations and dialogue.

Table 2. Agencies that did not submit reports by March 1, 2016 as required by state law		
Appleton City Police Department	Camden Point Police Department	Chafee Police Department

III. ANALYSIS BY ATTORNEY GENERAL CHRIS KOSTER

This report represents the sixteenth annual analysis of vehicle-stops data in Missouri, and the eighth conducted since I became attorney general. The data reported by 623 law enforcement agencies across the state indicate 1,565,728 vehicles were stopped in 2015. Demographic information about last year’s stops can be compared with corresponding data going back to 2000.

The overall number of stops reported in 2015 decreased slightly from the previous year, as did the disparity index for African-American drivers—from 1.66 in 2014 to 1.61 in 2015. However, the figure remains substantially higher than the 1.27 index calculated in 2000. The disparity index for Hispanic drivers increased slightly last year—from .62 in 2014 to .69 in 2015. Both African-Americans and Hispanics continue to have search and arrest rates significantly higher than white drivers even though white drivers are more frequently found to have contraband.

The annual vehicle stops report was not intended to establish a causal relationship between race and the disparate enforcement of traffic laws or to provide final answers to serious concerns about racial profiling, but rather to spur conversation and foster changes in policy. Yet the statute authorizing the report has been amended only twice in 16 years, once in 2001 to repeal the annual sensitivity training requirement, and again in 2004 to exempt lawfully conducted sobriety checkpoints from reporting requirements.

It is time for the General Assembly—which ordered the collection of vehicle stop data 16 years ago—to decide how to make the annual vehicle stops report more meaningful. The General Assembly should solicit suggestions from the relevant stakeholders—including law enforcement, local governments, and representatives from the communities they serve—regarding measures to improve the report. Revisions could include changes in the type of data collected and to strengthen the penalties for individual departments that fail to participate in the reporting process.

My administration has encouraged greater engagement between law enforcement and minority communities. We hosted multiple Roundtables on Representative Policing. Chief Dotson and I have spoken at numerous school assemblies throughout St. Louis to encourage more minority students to consider careers in law enforcement. But these are just first steps. If there is to be any meaningful change in response to the growing disparity indices identified over the last decade

and a half, the Legislature must act.

[ [back to top](#) ]

FOOTNOTES

**Footnote 1:** Hispanics may be of any race. About 1 percent of the population designated two or more races. These persons are included in the “other” category along with persons of unknown race.

**Footnote 2:** The population totals in the table are from the 2010 Census.

**Footnote 3:** Caution should be used when comparing 2000 to subsequent years, especially for smaller agencies, because the 2000 figures are based on only four months of traffic data, while those for subsequent years are based on the full calendar year.

## **Chapter 590** **Peace Officers, Selection, Training and Discipline** **Section 590.650**

August 28, 2013

---

**Racial profiling--minority group defined--reporting requirements--annual report--review of findings--failure to comply--funds for audio-visual equipment--sobriety check points exempt.**

590.650. 1. As used in this section "minority group" means individuals of African, Hispanic, Native American or Asian descent.

2. Each time a peace officer stops a driver of a motor vehicle, that officer shall report the following information to the law enforcement agency that employs the officer:

- (1) The age, gender and race or minority group of the individual stopped;
- (2) The reasons for the stop;
- (3) Whether a search was conducted as a result of the stop;
- (4) If a search was conducted, whether the individual consented to the search, the probable cause for the search, whether the person was searched, whether the person's property was searched, and the duration of the search;
- (5) Whether any contraband was discovered in the course of the search and the type of any contraband discovered;
- (6) Whether any warning or citation was issued as a result of the stop;
- (7) If a warning or citation was issued, the violation charged or warning provided;
- (8) Whether an arrest was made as a result of either the stop or the search;
- (9) If an arrest was made, the crime charged; and
- (10) The location of the stop.

Such information may be reported using a format determined by the department of public safety which uses existing citation and report forms.

3. (1) Each law enforcement agency shall compile the data described in subsection 2 of this section for the calendar year into a report to the attorney general.

(2) Each law enforcement agency shall submit the report to the attorney general no later than March first of the following calendar year.

(3) The attorney general shall determine the format that all law enforcement agencies shall use to submit the report.

4. (1) The attorney general shall analyze the annual reports of law enforcement agencies required by this section and submit a report of the findings to the governor, the general assembly and each law enforcement agency no later than June first of each year.

(2) The report of the attorney general shall include at least the following information for each agency:

(a) The total number of vehicles stopped by peace officers during the previous calendar year;

(b) The number and percentage of stopped motor vehicles that were driven by members of each particular minority group;

(c) A comparison of the percentage of stopped motor vehicles driven by each minority group and the percentage of the state's population that each minority group comprises; and

(d) A compilation of the information reported by law enforcement agencies pursuant to subsection 2 of this section.

5. Each law enforcement agency shall adopt a policy on race-based traffic stops that:

(1) Prohibits the practice of routinely stopping members of minority groups for violations of vehicle laws as a pretext for investigating other violations of criminal law;

(2) Provides for periodic reviews by the law enforcement agency of the annual report of the attorney general required by subsection 4 of this section that:

(a) Determine whether any peace officers of the law enforcement agency have a pattern of stopping members of minority groups for violations of vehicle laws in a number disproportionate to the population of minority groups residing or traveling within the jurisdiction of the law enforcement agency; and

(b) If the review reveals a pattern, require an investigation to determine whether any peace officers of the law enforcement agency routinely stop members of minority groups for violations of vehicle laws as a pretext for investigating other violations of criminal law; and

(3) Provides for appropriate counseling and training of any peace officer found to have engaged in race-based traffic stops within ninety days of the review.

The course or courses of instruction and the guidelines shall stress understanding and respect for racial and cultural differences, and development of effective, noncombative methods of carrying out law enforcement duties in a racially and culturally diverse environment.

6. If a law enforcement agency fails to comply with the provisions of this section, the governor may withhold any state funds appropriated to the noncompliant law enforcement agency.

7. Each law enforcement agency in this state may utilize federal funds from community-oriented policing services grants or any other federal sources to equip each vehicle used for traffic stops with a video camera and voice-activated microphone.

8. A peace officer who stops a driver of a motor vehicle pursuant to a lawfully conducted sobriety check point or road block shall be exempt from the reporting requirements of subsection 2 of this section.

(L. 2000 S.B. 1053, A.L. 2001 H.B. 80, A.L. 2004 S.B. 1233, et al.)

## VEHICLE STOPS REPORT

[Statement by AG Koster](#) | [2015 Executive Summary](#) | [Advanced Search](#) | [Rules & Regulations](#)

Concerns by the citizens of Missouri and the Missouri legislature regarding allegations of racial profiling by law enforcement prompted the passage of state law [Section 590.650, RSMo \(2000\)](#), which was enacted Aug. 28, 2000. Racial profiling has been defined as the inappropriate use of race by law enforcement when making a decision to stop, search or arrest a motorist.

Missouri's state law requires that all peace officers in the state report specific information including a driver's race for each vehicle stop made in the state. Law enforcement agencies are required to provide the data to the Attorney General, and the Attorney General is required to compile the data and report to the Governor no later than June 1 of each year. The law allows the Governor to withhold state funds for any agency that does not comply with the law. State law requires that all information be reported to the Attorney General's Office by March 1.

The summary of statewide racial profiling data has been provided by Scott H. Decker, professor and director of the School of Criminology and Criminal Justice at Arizona State University; Richard Rosenfeld, professor in the Department of Criminology and Criminal Justice at the University of Missouri-St. Louis; and Jeffrey Rojek, assistant professor in the Department of Criminology and Criminal Justice at the University of South Carolina.

# 2015 Annual Report

## *Missouri Vehicle Stops*

Missouri Attorney General - Chris Koster

## **Executive Summary**

# Table of Contents

Background.....	4
2015 Statewide Summary of Results.....	5
Statewide Findings.....	6
Agencies that did not submit reports as required by state law.....	8
Agencies that submitted incomplete reports.....	8
Agencies that reported no stops.....	9
Analysis by Attorney General Chris Koster.....	10

## Background

Concerns by the citizens of Missouri and the Missouri legislature regarding allegations of racial profiling by law enforcement prompted the passage of state law Section 590.650, RSMo (2000), which was enacted Aug. 28, 2000. Racial profiling has been defined as the inappropriate use of race by law enforcement when making a decision to stop, search or arrest a motorist.

Missouri's state law requires that all peace officers in the state report specific information including a driver's race for each vehicle stop made in the state. Law enforcement agencies are required to provide the data to the Attorney General, and the Attorney General is required to compile the data and report to the Governor no later than June 1 of each year. The law allows the Governor to withhold state funds for any agency that does not comply with the law. State law requires that all information be reported to the Attorney General's Office by March 1.

The summary of statewide racial profiling data has been provided by Scott H. Decker, professor and director of the School of Criminology and Criminal Justice at Arizona State University; Richard Rosenfeld, professor in the Department of Criminology and Criminal Justice at the University of Missouri-St. Louis; and Jeffrey Rojek, assistant professor in the Department of Criminology and Criminal Justice at the University of South Carolina.

## 2015 Statewide Summary of Results

Key indicators	Total	White	Black	Hispanic	Asian	Am. Indian	Other
Population	4,730,501	3,914,998	515,828	139,109	80,677	19,168	60,721
Stops	1,565,728	1,231,607	275,081	31,624	14,217	1,711	11,488
Searches	94,126	66,284	24,105	2,845	381	89	422
Arrests	70,664	48,672	18,996	2,289	328	73	306
State population %	100.00%	82.76	10.90	2.94	1.71	0.41	1.28
Disparity Index	---	.95	1.61	.69	.53	.27	.57
Search rate	6.01	5.38	8.76	9.00	2.38	5.20	3.67
Contraband hit rate	27.79	29.42	24.34	20.70	22.05	29.21	21.80
Arrest rate	4.51	3.95	6.91	7.24	2.31	4.27	2.66
<b>Notes:</b> Population figures are 2010 Census data based on persons 16 and older who designated a single race. Hispanics may be of any race. "Other" includes persons of mixed race or unknown race.							
Disparity index = (proportion of stops / proportion of population). A value of 1 represents no disparity; values greater than 1 indicate over-representation; values less than 1 indicate under-representation.							
Search rate = (searches / stops) x 100.							
Contraband hit rate = (searches with contraband found / total searches) x 100.							
Arrest rate = (arrest / stops) x 100.							

## Statewide Findings

**T**his report summarizes the data from 623 law enforcement agencies in Missouri for 2015.

An additional 56 agencies indicated they made no traffic stops during the year. This represents 97.7% of the 695 law enforcement agencies in the state.

The agencies filing reports recorded a total of 1,565,728 vehicle stops, resulting in 94,126 searches and 70,664 arrests. Table 1 breaks out the stops, searches and arrests by race and ethnic group.<sup>1</sup>

Four summary indicators are included in Table 1 that may be useful in assessing racial profiling in traffic stops. The first, termed the “disparity index,” relates each group’s proportion of total traffic stops to its proportion of the driving-age population 16 years old and older.<sup>2</sup>

A value of 1 on this index indicates that a group’s proportion of vehicle stops equals its population proportion: it is neither “under-represented” nor “over-represented” in vehicle stops. Values above 1 indicate over-representation, and those below 1 indicate under-representation.

For example, the 1,231,607 whites who were stopped accounted for 78.7 percent of all vehicle stops in 2015.

Approximately 82.8% of Missouri’s driving-age population identified as “White.” The value for whites on the disparity index is, therefore, .95 (.783/.828). Whites were stopped, in other words, at slightly below the rate expected based on their fraction of the population age 16 and older from the 2010 Census.

The same is not the case for several other groups. African-Americans represent 10.9 percent of the

population 16 years and older but 17.6 percent of all vehicle stops, for a value on the disparity index of 1.61. This means that African-Americans were stopped at a rate 66 percent greater than expected, based on their proportion of the population of people aged 16 and older.

Hispanics, Asians, American Indians, and persons of mixed or unknown race were stopped at rates well below their proportion of the driving-age population.

The values on the disparity index for the different groups can be compared directly to one another. For example, the likelihood that an African-American motorist was stopped is 1.69 times that of a white motorist (1.61/.95). In other words, African-Americans were 69 percent more likely than whites to be stopped based on their respective proportions of the Missouri driving-age population in 2015.

It should be remembered that the disparity index is a gauge of the likelihood drivers of a given race or ethnic group are stopped based on their proportion of the residential population 16 and older, not on the population of motorists on the state’s streets, roads and highways. A group’s share of the residential population 16 and older may or may not be similar to its proportion of drivers in the reporting area, and when there is a large discrepancy between the two numbers, the disparity index will be skewed.

When this occurs, it may largely be due to the fact that motorists are often stopped in municipalities, counties, or even states in which they do not reside. For example, a county may have a very low percentage of African-American residents, but a higher percentage of African-American motorists passing through the county due to the location of a state or federal highway. If local law enforcement stops some number of African-American motorists passing through the county, the number of stops

1 Hispanics may be of any race. About 1 percent of the population designated two or more races. These persons are included in the “Other” category along with persons of unknown race.

2 The population totals in the table are from the 2010 Census.

may be highly disproportionate to the number of African-American county residents—resulting in a high disparity index—but less disproportionate to the actual number of African-Americans who drive through the county. Because no data is available for the racial demographics of motorist traffic, it cannot be calculated for purposes of this report.

A second indicator that can be used to assess racial profiling is the “search rate,” or the number of searches divided by the number of stops (x 100). In this report, searches include both searches of drivers and searches of the vehicle and property within.

The search rate for all motorists who were stopped is 6.01 percent. Asian drivers were searched at a rate well below the statewide average, while African-Americans and Hispanics were searched at rates above the statewide average.

Like the stop rates, the search rates for the different groups can be compared directly with one another. African-Americans were 1.63 times more likely to be searched than whites (8.76/5.38). Hispanics were 1.67 times more likely than whites to be searched (9.00/5.38).

The reasons for conducting a search and the outcome of the search (such as finding contraband) should be considered when making comparisons across groups.

Some searches are conducted with the consent of the driver, or because the officer observed suspected contraband in plain view, had reasonable suspicion that an individual may possess a weapon, or other reasons. These searches may or may not result in an arrest.

Other searches are conducted incident to arrest, which means that there is no other reason given for the search other than arrest. Searches are almost always performed when there is an outstanding arrest warrant, whether or not contraband may be present.

The third summary indicator, the “contraband hit rate,” reflects the percentage of searches in which contraband is found. Contraband was found in 27.8 percent of all searches conducted in 2015. There is some variation, however, in the contraband hit rate across race and ethnic groups.

The contraband hit rate for whites was 29.4 percent, compared with 24.3 percent for African-Americans and 20.7 percent for Hispanics. This means that, on average, searches of African-Americans and Hispanics are less likely than searches of whites to result in the discovery of contraband. This difference may result in part from the higher arrest rates for African-Americans and Hispanics—if there is an arrest, there will be a search whether or not the arresting officer suspects the subject has contraband.

The “arrest rate” is the fourth summary indicator included in Table 1 that may be useful for assessing racial profiling. Just under 5 percent of all vehicle stops resulted in an arrest (70,664/1,565,728). The probability of arrest varies across racial and ethnic groups.

Approximately 6.9 percent of the stops of African-Americans and 7.2 percent of the stops of Hispanics resulted in arrest, compared with about 3.9 percent of the stops of whites.

There are two appendices to this year’s report. Appendix A presents the vehicle stop analysis using the statewide proportions of race and ethnicity, rather than those for each jurisdiction.

This year’s report compares the 2015 disparity index to the disparity indexes for 2000 through 2014.<sup>3</sup> These comparisons are presented in Appendix B.

For each agency, the disparity index for each racial or ethnic group is presented for 2000-2015. For the state as a whole, the key indicators generally show small changes between the years 2014 and 2015.

<sup>3</sup> Caution should be used when comparing 2000 to subsequent years, especially for smaller agencies, because the 2000 figures are based on only four months of traffic data, while those for subsequent years are based on the full calendar year.

The search rate (the percentage of stops in which a search is conducted) decreased between 2014 and 2015 for white, African-American, Hispanic, Asian, and American Indian drivers. The arrest rate for African-Americans decreased (from 7.90 percent to 6.91 percent) and decreased for Hispanics (from 8.19 percent to 7.24 percent) between 2014 and 2015.

A reasoned determination of the existence of racial profiling in a community requires a comprehensive evaluation of the full range of information compiled in the agency reports. This brief summary of selected indicators for the state as a whole is intended to encourage those local evaluations and dialogue.

## Analysis by Attorney General Koster

**T**his report represents the sixteenth annual analysis of vehicle-stops data in Missouri, and the eighth conducted since I became attorney general. The data reported by 623 law enforcement agencies across the state indicate 1,565,728 vehicles were stopped in 2015. Demographic information about last year's stops can be compared with corresponding data going back to 2000 on the attorney general's website at [www.ago.mo.gov](http://www.ago.mo.gov).

The overall number of stops reported in 2015 decreased slightly from the previous year, as did the disparity index for African-American drivers—from 1.66 in 2014 to 1.61 in 2015. However, the figure remains substantially higher than the 1.27 index calculated in 2000. The disparity index for Hispanic drivers increased slightly last year—from .62 in 2014 to .69 in 2015. Both African-Americans and Hispanics continue to have search and arrest rates significantly higher than white drivers even though white drivers are more frequently found to have contraband.

The annual vehicle stops report was not intended to establish a causal relationship between race and the disparate enforcement of traffic laws or to provide final answers to serious concerns about racial profiling, but rather to spur conversation and foster changes in policy. Yet the statute authorizing the report has been amended only twice in 16 years, once in 2001 to repeal the annual sensitivity training requirement, and again in 2004 to exempt lawfully conducted sobriety checkpoints from reporting requirements.

It is time for the General Assembly—which ordered the collection of vehicle stop data 16 years ago—to decide how to make the annual vehicle stops report more meaningful. The General Assembly should solicit suggestions from the relevant stakeholders—including law enforcement, local governments, and representatives from the communities they serve—regarding measures to improve the report. Revisions could include changes in the type of data collected and to strengthen the penalties for individual departments that fail to participate in the reporting process.

My administration has encouraged greater engagement between law enforcement and minority communities. We hosted multiple Roundtables on Representative Policing. Chief Dotson and I have spoken at numerous school assemblies throughout St. Louis to encourage more minority students to consider careers in law enforcement. But these are just first steps. If there is to be any meaningful change in response to the growing disparity indices identified over the last decade and a half, the Legislature must act.

**Agency response**

We have Interstate I-49 just outside city limits and also in McDonald County there are two major chicken plant, Tyson's and Simmons. The employee's travel through the City of Anderson to get to these plants. We also have the McDonald County High School, Anderson Middle School, Anderson Elementary School and Mustang Academy.

### Agency response

Boone County's population is growing rapidly, experiencing an increase of over 7.6% since the 2010 census. U.S. Census Bureau data as of July 2015, estimates Boone County's population at 174,974. The City of Columbia is the metropolitan center of Boone County and is the home to the state's flagship university, two other smaller colleges and many satellite college campuses. Columbia is the regional hub for employment in the education, medical (5 hospitals), insurance and manufacturing industries. Columbia also hosts multiple shopping, sporting and entertainment venues which draw visitors from all over the country. Boone County has the convergence of two major highways ((Interstate 70 and U.S. Highway 63), and its population is greater during the day than at any other time with commuting workers.

**Agency response**

In reviewing the racial profiling data for the Branson Police Department it was discovered there is a disparity index of 2.0 involving vehicle stops on black individuals. It should be noted that according to your information black individuals make up approximately 1.6 % of the city's population. According to the 2010 US Census, black individuals make up 2% and white individuals make up 89% of Branson's population. These numbers are slightly different than those indicated in the racial profiling data. Another consideration that may not have been made was Branson's large population of transient visitors. The City of Branson is a tourism based community. In 2015 we had approximately 8.2 million visitors. Being the largest community in Taney County we are also the largest center for employment in the region. With our tourists and those working in or community along with our residents we have an average population between 70 and 80 thousand. We have no way of knowing the racial demographics of this group or how it would impact the racial profiling data report. We do feel confident that our personnel are not in any way involved in any form of racial profiling or disparate treatment of the public. You will note that while we show a disparity rate of 2.16 based on a population of 8,764 there were only 146 vehicle stops of black individuals compared to 3851 of white individuals. Please consider the above points in regards to the Branson Police Department's disparity index on black individuals.

**Agency response**

The City of Bridgeton is located near Lambert Airport and consists of a small residential population. There are three major interstate highways; namely, 70, 270 and 370 that run through the City. Also, US highway 67 (Lindbergh), St. Charles Rock Road and Natural Bridge Road are major thoroughfares which also run through the City of Bridgeton. There is a large transient population and work force with many hotels and large industrial employers with in Bridgeton's boundaries.

### Agency response

The City of Calverton Park is centrally located in north St. Louis County, Missouri's most populous county, with almost one million residents. The City's main thoroughfare, N. Florissant Road (Rt. N), travels directly through the City, connecting Interstate 70 and Interstate 270. N. Florissant Road sees a daily traffic count of approximately 14,250 vehicles daily (MoDOT). Additionally, the City of Calverton Park is geographically located between two colleges, five large public and private high schools and several elementary schools. Due to the location, the City sees a large amount of student pedestrian traffic during school hours; as well as vehicle traffic with younger drivers.

### Agency response

Chesterfield Police Department, Additional Information for the Missouri General's Office, Regarding Chesterfield's 2015 Racial Profiling Data Summary: According to the 2015 Missouri Attorney General's Vehicle Stop data, Chesterfield officers stopped 8114 vehicles; 84% of the drivers were White, 11% were Black, 3% were Asian; less than 1% were Hispanic. For comparison purposes, the City's population demographics are estimated to be 83% White, 3% Black, 9% Asian and 3% Hispanic. It should be noted that the census data regarding the percentage of African-Americans living in Chesterfield may be somewhat deceiving as the day-time population of Chesterfield, in both numbers and racial/ethnic makeup, is considerably different than those portrayed by the latest census figures. Chesterfield is home to four major retail centers, numerous restaurants and a large light-industrial area. The numbers of African-Americans working, shopping and otherwise doing business within the city limits is much higher than represented in the City's residential population. Additionally, Chesterfield has an interstate (I-64) and several large state and county roadways that intersect it and although the racial make-up of those traveling on these roadways is unknown, it is very unlikely that it would closely mirror the racial and ethnic makeup of the city's population.

Data published by the Missouri Attorney General's Office for 2014 compares the proportion of stops by racial category for each police agency to the proportion of the statewide population of each racial category. The results for the Chesterfield Police Department are as follows:

AGENCY \*

White	Black	Hispanic	Asian	Am Indian	Other
1.02	1.03	0.20	1.93	0.75	0.41

\* A value of 1 indicates local stops within a racial category equivalent to that racial group's proportion in the state population.

The Proportion to State Racial Composition report from the Missouri Attorney General's Office for 2015 has not yet been published.

The Chesterfield Police Department strictly prohibits any and all forms of bias policing (racial profiling) by its personnel. This prohibition of bias policing practices applies to all encounters between police officers and citizens including arrests, traffic contacts, suspicious vehicle stops, field contacts, investigative detentions,

consensual inquiries and forfeiture efforts. In addition to providing "Traffic Analysis" data to the Missouri Attorney General's Office annually, meeting all state statute requirements, the department has implemented a number of safeguards in order to prevent and or detect any possible signs of biased policing.

The department utilizes monthly Quality Service Evaluations (QSE); randomly choosing sixty individuals who have had contact with the agency's personnel each month and mailing them survey forms regarding the quality of services received. A more extensive citizen survey is mailed to every household in Chesterfield once every three years seeking similar input. The results of these surveys are closely scrutinized for possible indicators of bias policing practices. Annual training on fair and impartial policing is provided to all commissioned personnel and a Citizens' Concerns memo is compiled quarterly and reviewed by command personnel for possible evidence of biased police practices.

Another means of preventing and monitoring for bias policing practices is through the department's weekly in-car camera audits which are conducted by all supervisors in the Patrol, Traffic & Special Enforcement Units. Each officer in these units has a standard number of their vehicle stops randomly chosen and reviewed by their supervisors each month. The results of these audits are forward to the division commander for review. In addition to heading off possible racial profiling practices, these audits often lead to the discovery of equipment failures or potentially unsafe actions by officers; repairs or spot corrections can then be made.

Current Missouri law caps traffic fine revenue at 20% of a municipality's budget; a municipality in St. Louis County cannot derive more than 12.5 % of its general operating revenue from minor traffic cases. In 2015, Chesterfield collected \$1,065,157 in total fines, forfeitures and court costs which represents 5% of the City's General Operating Revenue. The annual dollar amount for minor traffic cases is not currently available as the City only began tracking those figures after Senate Bill 5 went into effect in August 2015. Chesterfield collected \$1,031,075 in total traffic fines (not just minor offenses) from January 1, 2015 through August 28, 2015 and for minor traffic violations only from August 29, 2015 through December 31, 2015, which represents only 4.8% of the City's General Operating Revenue; well below the State's requirement for St. Louis County municipalities.

The Chesterfield Police Department is committed to investigating all complaints of biased policing and conducts an annual administrative review (see Biased Based Profiling Complaints table below).

**Biased Profiling**

<b>Complaints from:</b>	<b>2013</b>	<b>2014</b>	<b>2015</b>
<b>Traffic Contacts</b>	<b>0</b>	<b>2</b>	<b>1</b>
<b>Field Contacts</b>	<b>0</b>	<b>0</b>	<b>0</b>
<b>Asset Forfeiture</b>	<b>0</b>	<b>0</b>	<b>0</b>

The department has had only three complaints of biased policing since 2013; all three complaints were found to be without merit. Each was thoroughly investigated to include a comprehensive review of each officer's vehicle stop data for the previous year including a comparison of the department averages for the same data during the same period.

### Agency response

Clayton is not like most other cities in St. Louis County. As the County seat, it is home to the County's Courts, Government Center, the Justice Center and many other social services, as well as being home to major corporations and a destination for restaurant and retail businesses. As such, Clayton serves as a hub of economic and governmental activity for the entire region. While this study cites a resident driving population of 13,803 people, Clayton is said to have a daily average population of roughly 46,000 people, which rises to an estimated peak of 70,000-80,000 people. Additionally, using figures from a 2014 study for our Downtown Housing Project, Clayton has an estimated population of 17,593 people living within a one mile radius of City Hall. These numbers increase to 113,679 from 0-3 miles out, and to 297,877 from 0-5 miles out. Using these figures, the minority population is calculated at 9.93%, 29.35%, and 33.85%, respectively. For this reason, using Clayton's residential driving population to determine potential bias doesn't seem to be an appropriate method, as it doesn't take into account the people living, working, and visiting Clayton, either in total numbers or in racial makeup. In tandem with these figures, social scientists say there are a number of other factors which should be considered in attempting to determine potential bias, and trying to do so using only residential driving population seems quite inadequate. Among the various factors cited by Dr. Lori Fridell that should be considered in such a survey are driving quantity, quality and location, all of which are legitimate factors for reviewing car stop data. With all due respect to the methodology used to calculate disparity, we feel these measures, among others, would be appropriate to include in the study data.

**Agency response**

Frontenac has a large section of I-64 and a major shopping mall within the City, which is located in the geographic center of St. Louis County. Daytime population increases by tens of thousands of people. The flawed disparity index used by the Attorney General's Office uses only individual city demographics, as opposed to more realistic county-wide demographics. This skews the results when viewed in relation to a small City with few minority residents. This is true for other cities within St. Louis County with few Caucasian residents. Obviously, motorists other than Frontenac residents drive on our streets and highways. For years this Department has requested that the comparison formula being used be revised to include St. Louis County data. This would clearly show that Frontenac Police traffic stops are directly reflective of St. Louis County demographics. Frontenac Police Officers are committed to protecting and serving fairly, with respect for all people. We appreciate the opportunity to provide a more accurate framework of our traffic stop data.

### Agency response

The City of Gladstone is characterized as an "inner tier" suburb in the Greater Kansas City Metropolitan area north of the Missouri River. In fact, our city is completely surrounded by the City of Kansas City and is impacted by the same influences found in many major cities in the United States. An Interstate highway (Interstate 29) passes through the southern section of our city and a major highway (U.S. 169 Highway) is situated a few hundred feet outside our west city limits. Both are major arteries in the area that bring a significant amount of traffic into and through Gladstone daily. There are several apartment complexes located within the city limits of Kansas City immediately adjacent to the City of Gladstone. Several of these apartment complexes are accessible only by way of Gladstone city streets, generating significant motor vehicle traffic – including minority drivers – through Gladstone that are not reflected in the recorded demographics for the City. In addition, the City of Gladstone experiences considerable vehicular traffic that originates and/or terminates within Kansas City and/or the surrounding metropolitan area (both Missouri and Kansas). This is evidenced by an analysis of traffic accidents investigated by our agency. When examining accident statistics for the City of Gladstone for the calendar years 2013, 2014 and 2015; the data reveals nearly 66% of the drivers involved in traffic accidents are non-residents of Gladstone (48.6% of the drivers are residents of Kansas City, Missouri). Gladstone residents account for just over 32% of the drivers involved in traffic accidents. The combination of freeway access, being surrounded by Kansas City, the concentrations of minority tenants in apartment complexes proximal to Gladstone, the visitor traffic generated by these apartments, and traffic generated from outside our city, attracts a higher percentage of motorists – including minorities – than the proportion of the minority residents of the city would suggest in the data recorded. The traffic accident data clearly supports the conclusion that two-thirds of the vehicular traffic in Gladstone is non-residents of the city and therefore the conclusions drawn by analyzing traffic stops is flawed when comparing the data against the recorded minority population living in Gladstone. In light of recent events focused on law enforcement and disparate treatment of people of color in the United States, additional emphasis has been placed on educating our police officers. In addition to the annual online racial profiling training offered through Police Legal Sciences that meet the minimum requirements from Missouri Police Officers Standards and Training (POST), all Gladstone officers were required to participate in "Racial Profiling 200: Cultures-Oriented Community Policing" and "Racial Profiling 300: Minority Cultures-Oriented Community Policing" in 2015. This training was presented by Dr. Emmanuel Ngomsi, Ph.D. – President of All World Languages and Cultures. Dr. Ngomsi designs and delivers training to local law enforcement officers on the subject of interacting with different cultures in the

community. Gladstone Department of Public Safety has established, and vigorously enforces, policies to ensure minorities are not disproportionately subjected to stops or arrests by our police officers. These policies are reinforced by active/involved supervision and training of our law enforcement personnel to ensure racial profiling and other discriminatory behavior does not occur in the department. Thank you for allowing me the opportunity to respond to the Attorney General's report to the Governor and General Assembly.

**Agency response**

Although the City of Glendale is a small bedroom community within the I-270 corridor of St. Louis County, Missouri thousands of motorist travel through Glendale each and every day. Three major shopping centers, which are located nearby, increase the daily traffic flow, adding to the normal commuters travelling to and from work, school and play within our community. Our northern border is Missouri State Highway 100 (Manchester Road), which is a major east – west thoroughfare in the St. Louis Metropolitan area, with over 30,000 vehicles traveling it each day on average. We have two county arterial roadways (Berry Road & Lockwood Avenue) within the city as well, both averaging over 10,000 vehicles per day. We are within a half-mile of Interstate 44, which allows for easy access to the City of St. Louis and other Interstate systems in the St. Louis Metropolitan area. Therefore a large number of the motorists travelling through the City of Glendale are not residents of our community and may not necessarily represent the racial breakdown of the Glendale community itself. We are a small city with major metropolitan motor vehicle traffic.

### Agency response

The State's report indicated a driving-age population demographic for the City of Grandview as 49.48% White, 38.51% Black, 8.34% Hispanic and 1.16% Asian respectively. However, our true driving demographics are affected by several major influences which are not reflected in the census data. The first is that the City of Grandview is a first tier city to Kansas City, MO which is bisected by I-49/U.S. 71 hwy; a major corridor direct to the inner city which maintains a high minority population. Much of our evening traffic is made up of motorists traveling to and from the inner city. Secondly, in 2010, the International House of Prayer opened their international university campus in the city center. This campus brings in several thousand very racially diverse students, which operate motor vehicles on our city streets on a daily basis but which are not represented in the census driving population data. Finally, since the 2010 census, the Grand Summit Apartments located on MO 150 hwy (a major traffic corridor) have completed a large expansion, increasing by over 300 apartments. These apartments have since been filled and another large expansion is planned in the next year. The occupants of these apartments are racially diverse and are also not reflected in the census driving population data. I hope that you find this information useful and that it provides a more accurate representation of the demographics of our driving population. If you need any additional information or clarification, feel free to contact me.

**Agency response**

The City of Hannibal has both the US 61 and US 36 Highways intersecting within its boundaries. In addition, Hannibal is known as "America's Hometown" and for "Mark Twain" which draws a sizable number of tourists annually. Considering all these factors demonstrates Hannibal's local population as related to race is an inaccurate representation of what local law enforcement officers encounter in the performance of their duties. The statewide population % concerning race is a more accurate representation of the populace officers interact with during the completion of their duties.

### Agency response

The 2015 Profiling Data for Independence, Missouri indicates the African-American minority driving population to be 4.75%. This is comparable to the 2010 census report estimating the segment of Independence's African-American population to be at 5.4% of the total population. The 2015 disparity index for this population of 3.37% is consistent with the past three years. The City of Independence shares a common border with Kansas City, Missouri. The African-American population of Kansas City is approximately 31.23%. Independence is a metro destination for dining, shopping, and entertainment. Within Independence there is a major indoor shopping mall, 20 theater complex, event and sports arena, and significant employment and retail opportunities. These factors in conjunction with major Interstate and State Highways running through Independence and a 24.0% African American population in Jackson County does influence the racial composition of the motoring public. The Independence Police Department is a professional law enforcement agency that does not permit racial profiling. Officers receive annual training on cultural challenges and issues. We are committed to ensuring we maintain accountability and the integrity of the racial profiling documentary process in compliance with Missouri State Statute.

**Agency: Indian Point Police Dept.**

**Agency response**

Jasper County is located in SW Missouri, Jasper County has a mall and several large businesses that attract people to work or visit that do not live in our jurisdiction and we border Kansas and Oklahoma. We also have several miles of Interstate 44, State highway 43, State highway 96 and 171 highway that run through our County. We also have two universities inside our jurisdiction. (Missouri Southern State University and Ozark Christian College)

**Agency: Jasper Police Dept.**

**Population: 719**

age 16 and over

### Agency response

Joplin is located in the southwest portion of Missouri. According to the 2010 US Census, the City of Joplin, has a residential population of 51,337. The estimated driving population of Joplin according to the State of Missouri is 39,905. These numbers do not include the number of people that commute to Joplin daily to either work or to visit. According to the Joplin Area Chamber of Commerce, the average daytime population of Joplin swells to more than 240,000. Also, according to the Joplin Area Chamber of Commerce, the market area for Joplin which is a 45 mile radius from 7th and Main is approximately 419,000. These numbers obviously skew the residential population numbers that we are compared to whenever looking at the race of motorists that are stopped by our officers. Joplin also has two major Interstates (I-44 and I-49) that are located inside the City limits. This provides for a large amount of commuter traffic into our city. The Northpark Mall is located within the City limits of Joplin and is the largest mall within a 45 mile radius. Also located within the City limits of Joplin is Missouri Southern State University which states that their enrollment is approximately 5,587 students. We also have two regional hospitals, Mercy and Freeman Health Systems, which serve the surrounding four state area. As you can see, Joplin is a regional hub and our actual service population is much higher than the residential population might suggest.

Agency: Kahoka Police Dept.

Population: 1,642

age 16 and over

### Agency response

"Disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these numbers should be interpreted cautiously. Specifically, relying on the census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the city, including I-29, I-35, and I-70 that contain a large percentage of drivers not reflected in the static census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 2.0 million, which adds to the commuter population on the major thoroughfares. Also, when examining search rates, the probable cause/authority to search reasons should be considered. By design, the form on which the AG Office submitted the summary report did not include the category Stop Outcome "Other", which was a factor involving 5,277 stops. Lastly, KCPD views vehicle stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the department include training, community programs, and policies."

### Agency response

Kirksville is home to two major universities whose enrollment data is not totally reflected in the census figure. Truman State University has 714 students listed as other than white. They also have an additional 410 international students not included in the 714. ATSU enrollment for the fall of 2015 has 32% listed as non-white. The majority of ATSU students, 99%, come from outside the Kirksville area. The City of Kirksville has seen an increase of families from the Democratic Republic of the Congo since the 2010 census report. As an example, the Kirksville RIII School District reports 48 students enrolled in K-12 for the 2015-2016 school year. Kirksville is located on one of the few major north-south highways (Highway 63) that services northern Missouri and southern Iowa. Kirksville is the largest city for miles and is the cultural/economic hub for a very large area. This expands the pool of those not counted in the city's census information.

**Agency response**

Lafayette County is a rural county (2010 census population approx. 33,000) which abuts Jackson County, a large metropolitan county, (2010 census population approx. 674,000) on our western border. As well, Lafayette County has a major Interstate highway traversing the county from west to east, I-70. Because of these factors, Lafayette County's motoring public represents a more diverse population than the actual population diversity of our county.

**Agency: Lake Lotawana Police Dept.**

**Population: 1,608**

age 16 and over

**Agency response**

Lake Ozark's official full time population is deceiving versus the number of people who are part-time residents. Lake Ozark is a tourist area and can see as many as 10,000- 30,000 people per week from May through October. Many of those people are second home owners from Kansas City, St. Louis, Chicago, SE Iowa. The lake area draws many tourists in addition to the second home owners throughout the season staying for a week or two at a time. While a small community with a major 4 lane Highway running through the city, we offer the shopping and attractions of a large metropolitan area in addition to special events that may draw 15,000 per event.

**Agency response**

The city of Lake Saint Louis is bordered by I-70 to the north and I-64 bisects the south end with a recent addition of Hwy 364 as a new connector highway throughout St. Charles County. A large shopping center is just north of I-64 and a retail district lies directly to the south. Workers routinely travel both interstate corridors west to the Wentzville GM Plant and to major employers in O'Fallon and other points east. Due to these factors, calculating a disparity index based on comparison of ethnicity of drivers stopped with the ethnicity of the city's population may be misleading due to the transient traffic.

**Agency: Lake Tapawingo Police Dept.**

### Agency response

While the City of Lee's Summit continues to grow in diversity, aged data does not reflect this growth. As stated in 2014, the report data reflects a local African American population of 7.59%, while more recent school district student data reveals 11.7% of students are African American (a difference of over 4%). Lee's Summit is also a retail and employment destination, attracting residents from adjacent urban centers with much higher minority population percentages (25 – 40%) not reflected in the population data. The driving population differs from reported population statistics due to traffic on major arterial roadways, such as I-470, M-291, US-50, and M-150. Vehicle stops decreased in 2015, but contraband hit rate increased substantially. The police department monitors and evaluates traffic stop data quarterly and meets or exceeds all state guidelines for addressing this concern.

**Agency response**

The City of Maplewood borders the City of St. Louis and has three heavily traveled thoroughfares within its city limits, which includes Manchester Rd., Hanley Rd. and Big Bend Blvd. The City of Maplewood has just over five hundred businesses and is home to two major retail shopping centers and a vibrant downtown business district. A Missouri Department of Revenue Office and other State of Missouri offices are located within the Maplewood city limits. The City of Maplewood has Sunnen Business Park & Products Company within its city limits. The St. Louis County Board of Elections office is located in Sunnen Business Park. The City of Maplewood and the Maplewood Chamber of Commerce hosts several community events throughout the year that draws large crowds of visitors to the city.

**Agency response**

Interstate 70 extends within the City Limits of Oak Grove. At the intersection of I-70 at Oak Grove there are three major truck stops which create a high amount of traffic and individuals who are not part of the Oak Grove Census.

### Agency response

The City of O'Fallon is located in the center of St. Charles County. We have 2 major Interstates- I-70/64, Route 364, and State Highway 79. O'Fallon also has a major arterial roadway- MO K- that connects the 4 highways from north to south and is a major retail corridor. Because of these heavily traveled roadways, our driver population is more diverse than the census population would indicate, making our disparity index artificially high.

Agency: Old Monroe Police Dept.

Population: 195

age 16 and over

### Agency response

In reviewing your letter of April 15, 2016 concerning the racial profiling data for the City of Peculiar, I noted that the population for our community was listed as 3,403. The correct population, 2010 census, is 4,608. In addition, the city now has an interstate highway within the city limits, creating a tremendous increase in vehicular traffic. It should be noted that during the regular school year, the city has a transient daily increase of 5,000 persons at the consolidated school complex comprised of 5 district buildings. Thank you for your report and my opportunity to comment on the skewed disparity rates due to the aforementioned information.

### Agency response

Our higher than proportional incidence of stops of Black and Hispanic citizens centers around the fact that there are 6 food processing plants within a 45 minute drive of Sedalia. The workers live in and around Pettis, Johnson and Saline counties and drive to the plants daily. Tyson Foods of Dresden, Missouri is the largest food processing plant in Pettis County. These plants employ a large number of Hispanic and Black workers. Many of the Hispanic workers are illegal aliens and as such do not appear on the census rolls. Along with this is the fact that the University of Central Missouri is located in Warrensburg, Missouri in Johnson County. A large number of day and evening students from surrounding counties, commute to UCM daily. Vehicle stops by the Sheriff's Office are based on traffic violations observed, not the possible race of the drivers. The vast majority of the time, the race of the people stopped is unknown until the vehicle is actually stopped. Searches are conducted based on the actions of the individuals stopped or incident to lawful arrest. Race is not a factor in deciding who will or will not be asked for consent to search or who will be searched incident to arrest. In 2015, the Pettis County Sheriff's Office stopped 5.6 vehicles per month that were driven by black persons. This is not racial profiling by any possible stretch of the imagination.

KEY INDICATORS	Total	White	Black	Hispanic	Asian	Am. Indian	Other

### Agency response

Raymore is a rapidly growing community and continues to increase significantly in population, far above the numbers used for comparison from the 2010 census. The Community Development Director for the City of Raymore provided the official population estimate as 19,963 as of July 1, 2014. This number is provided to the City each May for the previous year by the U.S. Census Bureau. As such, the population estimate for the previous year is never available at this time when our response is required to the Office of the Attorney General. In 2015, the City of Raymore issued 123 permits for new single family homes, 10 duplex units and 6 multifamily dwelling units. The number of new single family homes in 2014 was 97, 2013 was 110, 2012 was 68, 2011 was 66 and 2010 was 48. A big box wholesale store relocated from Grandview, Missouri to Raymore in 2013 bringing a diverse, transient customer base with it. As this location has become more popular, it has drawn an increasing number of customers with commensurate diversity. A large retail store is located in the same area as the wholesale store and continues to be the highest "call for service" and arrest location in Raymore. This store is open 24hours and is the only one of such in the southern Kansas City metropolitan area. The total number of stops decreased from 6,444 in 2014 to 4,816 in 2015 representing a reduction of 1,628 or 25%. Conversely, the total number of minority stops decreased at a higher rate from 1,064 in 2014 to 704 in 2015 representing a reduction of 360 or 34%. A portion of the decrease in the overall number of stops is attributed to significant staffing shortages within the Raymore Police Department that continued in 2015. Raymore borders communities such as Kansas City, Belton and Grandview with considerably larger and more diverse populations.

**Agency: Raytown Police Dept.**

**Agency response**

The City of Richmond Heights is a 2.8 sq. mile City incorporated in 1913 located on the western boundaries of the City of St. Louis. Richmond Heights has three miles of U.S. 64 (Highway 40) running directly thru it. Highway I-170 runs north and south from U.S. 64 to the City limits of Clayton. Located in Richmond Heights is the Galleria shopping mall and the new Boulevard Shopping District. The Galleria Mall and the Boulevard generate approximately 11 million shoppers or visitors each year. Richmond Heights also borders the City of Clayton, which is the County Seat for St. Louis County. Thousands of vehicles travel thru Richmond Heights on a daily basis due to its geographic location. Estimated daytime population of Richmond Heights is 26,000.

**Agency response**

The Riverside Police Department by policy and practice prohibits racial profiling. There are factors which dramatically increase the driving population above Riverside's cited driver-eligible population. Those factors include: a daytime population which grows by 87%; the presence of a riverboat casino; bordering on two major metropolitan cities (Kansas City, MO and Kansas City, KS); and state and federal highway routes traveling through the City with a daily traffic count approaching 300,000 vehicles.

### Agency response

The Shrewsbury Police Department, an internationally CALEA accredited organization, is committed to the fair treatment of all citizens and visitors of our community. We support the Missouri Attorney General's efforts to better understand traffic enforcement activity and patterns. However, since the data in the Attorney General's report is descriptive in nature and not interpretive, further analysis of traffic stops, arrests, searches and contraband hit rates is needed so that more meaningful interpretations of the data can be made. Race-neutral explanations need to be considered and ruled out before any possible conclusions relating to disparate treatment can be drawn. Furthermore, we believe it would be more prudent to examine traffic enforcement activity in terms of the population that travels upon a community's roadways rather than its resident population. This would allow the data to then be examined in a much more appropriate context that would take into account the diversity of the surrounding region and the uniqueness of the motoring population of each individual community.

**Agency: Sikeston Police Dept.**

**Population: 12,695**

age 16 and over

**Agency response**

The St. Charles Police Department would like to point out that the driving population in St. Charles is not entirely reflective of the demographics of the resident population. There are a number of factors affecting the demographics of the driving population. Most notably, there are a number of major roadways traversing the city. They include Interstate 70, Mo. Hwy. 370, Mo. Hwy. 364, and Mo. Hwy. 94. All are heavily traveled by persons who are not city residents and thus not representative of the local population. Public facilities and businesses also attract large numbers of people from other areas of the metropolitan area. St. Charles is home to St. Joseph Health Center, the Family Arena, the St. Charles Convention Center, and Ameristar Casino. There is a significant concentration of businesses along the I-70 corridor and in the Main Street Historic District. Light industrial areas along Mo. Hwy. 370 employ many people from outside the City of St. Charles. Another facility that produces a large number of drivers whose demographics does not match that of the city's population is Lindenwood University. Thousands of students travel from around the world to attend Lindenwood. Thank you for your consideration of the above factors as we attempt to interpret the data contained in the 2015 report.

### Agency response

The City of St. Louis is approximately 62 square miles in size and lies at the core of the largest metropolitan area in the state. The City is comprised of 79 diverse neighborhoods and 105 city parks, and is home to a world-class zoo and other major museums and visitor attractions. The City hosts every home game for our three major sports franchises (as of 2015), a multitude of concerts and theatrical performances at various venues, and a set of large regional cultural events including the second-largest Mardi Gras celebration in the country. While the data compiled in this report are informative, it is important to note that the disparity indices represent ratios based simply on resident population. As a result, a high disparity rate does not serve as proof of racial profiling. Department policy prohibits racial profiling and officers must adhere to the policy. Every commissioned member of the Department receives annual training against the practice of racial and bias-based profiling, as required both by State law and by Department policy. This training is supplemented and reinforced by periodic courses in related topics such as cultural diversity, ethics, and communication skills. The Department continues to work with its officers, local leaders, and community and academic partners to identify best practices as they relate to vehicle stops.

### Agency response

The stop data the St. Louis County Police Department collects is helpful in presenting a preliminary picture of the population traveling through and within the county on a yearly basis. However, the demographic statistics of St. Louis County's residential populations, provided by the 2010 Census, does not account for the diverse population traveling throughout the county's 523 square miles on its 3,100 lane miles of roadway. St. Louis County is not only the state's largest population center with approximately one-sixth of the state's population, it is also a major travel, employment, and educational center. Five major interstate highways converge within the county, which is the heart of the greater St. Louis Metropolitan Area (comprised of eight counties across two states). According to a 2013 Missouri Department of Transportation study, St. Louis County has the highest average annual daily traffic numbers in the region, with some portions of the interstate accommodating as many as 200,000 vehicles per day. In a state that serves as a major transportation crossroads for the entire nation, St. Louis County is a significant transportation hub for the state. St. Louis County is home to more than 20 institutions of higher education, eight major malls, and countless shopping plazas. One-fourth of the state's workforce is employed within the county. As a major employer, commercial and educational center, St. Louis County not only attracts residents from the surrounding counties, but outlying counties in this state and the state of Illinois. For all these reasons and more, the population of people traveling throughout the county cannot solely be based on the demographics of its residents alone. Despite the higher than average diversity traveling through St. Louis County the St. Louis County Police Department frequently records disparity indices lower than the state's average. In 2015, our Department received 295,115 calls for service; officers made 16,918 full-custody arrests and 56,790 traffic stops with only four complaints of biased based profiling. All of the complaints were unfounded. Of the total number of stops in 2015, officers only knew the race of 4,972 drivers, or approximately 8.8%, prior to initiating their stop.

**Agency response**

The following conditions may influence minority contacts in St. Peters: Interstate Highway 70 and Missouri Highways 370 and 364 pass through or terminate within the City. Mid Rivers Mall, a major retail development, is located along Interstate 70 and Highway 370. The community is home to several regionally significant office and professional campuses; and employees of local businesses, commuter traffic, retail customers and borders the St. Charles Community College campus which significantly increases the non-resident driving population.

**Agency response**

The city of Strafford has two major truck stops (LOVES and TA) in our jurisdiction. Interstate 44 also runs directly through our jurisdiction. We also have a John Deere factory.

**Agency response**

In response to the above data I would like to note the following: Washington Missouri is the largest shopping/business hub in Franklin and adjoining Warren Counties. Washington has multiple large employers including the area's hospital and an industrial district, giving us a significant daytime population increase. Washington also has numerous bars and eating/drinking establishments giving us a nighttime population increase as well. Our data is influenced by these outside populations.

**Agency: Washington University Police Dept.**

**Population:**

age 16 and over

### Agency response

In regards to the racial profiling data, it should be noted that the population noted on the racial profiling data is incorrect. The estimated population from the 2010 Census is 4830. According to the United States Census Bureau the estimated population of Waynesville as of July 1, 2014 is 5,365. The City of Waynesville includes Waynesville Regional Airport at Forney Field, providing the community with air service. Although it is on Fort Leonard Wood, it is jointly run by the cities of Waynesville and Saint Robert and is available for civilian and commercial service. The major east-west routes near Waynesville is Interstate 44: before that, the main highway was US Route 66 which still exists as a scenic route through the area and passes through the Devil's Elbow, St. Robert, Waynesville, Buckhorn and Hazelgreen. The major north-south routes near Waynesville are: Route 17 which crosses Interstate 44 at exit 153 at Buckhorn, runs east through Waynesville, turns north to Crocker, and then runs north out of the county to Iberia. South of Interstate 44, Highway 17 hugs the western edge of Fort Leonard Wood, passes near Laquey, and circles south of the post until it runs out of the county and joins Highway 32 in Roby. Highway T which runs north from Highway 17 at Waynesville to Swedeborg, where it meets and ends at Highway 133 between Richland and Crocker. Major attractions along US route 66 include the Old Stagecoach Stop in downtown Waynesville, which is now a museum but began as a tavern and boarding house and is the oldest standing structure in the county. The Old Courthouse Museum in downtown Waynesville is near the Old Stagecoach Stop. Seven main school districts are fully or partially within the borders of Pulaski County, not counting two small districts which are mostly within other counties and only have a few dozen residents within Pulaski County. All seven school districts have a high percentage of Fort Leonard Wood military dependents, and over two thirds of Waynesville students fall into that category. The cities of Waynesville and St. Robert and Fort Leonard Wood along with their surrounding Rural Areas running east to Devil's Elbow, are served by the Waynesville R-VI School District which is by far the largest in the county. The City of Waynesville borders Fort Leonard Wood and is the main entry to Fort Leonard Woods West Gate. Fort Leonard Wood is a census designated place (CDP) in Pulaski County, Missouri, United States. The population was 15,061 at the 2010 census. The racial makeup of the CDP was 70.6% White, 16.5% African American, 1% Native American, 2.6% Asian, 0.7% Pacific Islander, Hispanic or Latino of any race were 14.6% of the population. I believe all of the information presented may provide additional information in order to clarify the data and provide a more accurate reflection of the demographics of our driving population. I hope this information will improve our ability to provide a more balanced report to the public.

### Agency response

The following is offered as additional information to further clarify and help put the data in fuller context. Located within the city limits are six (6) major chain hotels and three (3) major chain car rental agencies who employ minorities as a large percentage of their work force. Woodson Terrace is bordered to the East by the City of Berkeley who has a large minority population. Located within the city limits are two (2) Mexican Restaurants, two (3) Mexican Grocery stores; Interstate I-70 and State Highway 115 travel East and West through the City and State Highway EE travels North and South with these major routes connecting Woodson Terrace to the surrounding and outlying area. The northern city limits adjoin Lambert St. Louis International Airport and the Metro Link, which attracts a diverse segment of the population, to include Black and Hispanic, with access gained via Interstate I-70 and State Highway 115.

**Agency: Worth County Sheriff's Dept.**

**Notes:** Proportion of stops by racial category/proportion of statewide population of that racial category. A value of 1 indicates local stops within a racial category equivalent to that racial groups proportion in the state population. A value less than 1.0 indicates a lower proportion of stops of that racial group lower than its proportion in the state population. A value greater than 1.0 indicates a higher proportion of that racial group than its proportion of the statewide population.
